# 2016 Senior Survey

The 2016 Senior Survey asked members of the class of 2016 about their satisfaction with various aspects of their undergraduate experience, changes in their abilities and knowledge, involvement in academic and extracurricular activities, and their educational and employment plans.

The 2016 Senior Survey was administered via the web in spring 2016. Of the 3,331 seniors invited to complete the survey, a total of 1,505 students responded, yielding a 45% response rate.

The results of the 2016 Senior Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

On the first line of each table, the responses for the applicable question on the survey are presented for Cornell seniors as a whole. Survey responses are then broken out by seniors' gender identity[1], race/ethnicity[2], and undergraduate college.

---

[1] Based on a Senior Survey question asking seniors "Which of the following best describes your gender identity?" the gender identity category "Other gender identity" includes seniors who selected any of the following response options: agender, androgyne, demigender, genderqueer or gender fluid, questioning or unsure, trans man, trans woman, other gender identity.

[2] "Multiracial URM (U.S.)" includes American Indian/Alaskan Native students as well as students who reported multiple races/ethnicities including one or more of the following: American Indian/Alaska Native, Black/African American, or Native Hawaiian/Pacific Islander. "Multiracial Non-URM (U.S.)" includes students who reported their race/ethnicity as White and Asian. "International" includes non-U.S. students of any race or ethnicity.
