

2013 Cornell PULSE

The Cornell PULSE (Perceptions of Undergraduate Life and Student Experiences) Survey asks currently enrolled undergraduate students about their involvement in various academic and extracurricular activities, their interactions with faculty and students, and their perceptions of their undergraduate experience.

The 2013 Cornell PULSE was administered via the web in spring 2013. Of the 13,785 undergraduate students invited to complete the survey, a total of 6,190 students responded, yielding a 45% response rate.

The results of the 2013 Cornell PULSE are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

On the first line of each table, the responses for the applicable question on the survey are presented for Cornell undergraduate students as a whole. In order to highlight differences within Cornell, frequencies are also presented by class year, sex, race/citizenship, and undergraduate college.

		How would you evaluate your entire educational experience at Cornell University?				
		Poor	Fair	Good	Excellent	Total
