

## **2014 Senior Survey**

The 2014 Senior Survey asks members of the class of 2014 about their satisfaction with various aspects of their undergraduate experience, changes in their abilities and knowledge, involvement in academic and extracurricular activities, and their educational and employment plans.

The 2014 Senior Survey was administered via the web in spring 2014. Of the 3,196 seniors invited to complete the survey, a total of 1,474 students responded, yielding a 46% response rate.

The results of the 2014 Senior Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

On the first line of each table, the responses for the applicable question on the survey are presented for Cornell seniors as a whole. The responses for Cornell seniors are compared to the survey results of seniors from two different "norm groups." These groups include "Other Ivies" (the seven other Ivy League universities), "Non-Ivies" (thirteen non-Ivy research universities). In order to highlight differences within Cornell, frequencies are also presented by gender, race/ethnicity, and undergraduate college.

		Overall, how satisfied are you with your undergraduate education?					
		Very Dissatisfied	Generally Dissatisfied	Ambivalent	Generally Satisfied	Very Satisfied	Total
		Row %	Row %	Row %	Row %	Row %	Count
