

## 2018 Senior Survey

The 2018 Senior Survey asked members of the class of 2018 about their satisfaction with various aspects of their undergraduate experience, changes in their abilities and knowledge, involvement in academic and extracurricular activities, and their educational and employment plans.

The 2018 Senior Survey was administered via the web in spring 2018. Of the 3,225 seniors invited to complete the survey, a total of 1,427 students responded, yielding a 44% response rate.

The results of the 2018 Senior Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

On the first line of each table, the responses for the applicable question on the survey are presented for Cornell seniors as a whole. The responses for Cornell seniors are compared to the survey results of seniors from two groups of universities: "Other Ivies" (the seven other Ivy League universities), and "Non-Ivies" (fourteen non-Ivy research universities). In order to highlight differences within Cornell, frequencies are also presented by gender identity<sup>1</sup>, race/ethnicity<sup>2</sup>, and undergraduate college.

---

<sup>1</sup> Based on a Senior Survey question asking students "Which of the following best describes your gender identity? Mark all that apply." The gender identity category "Another gender identity" includes students who selected any of the following response options: agender, androgyne, demigender, genderqueer or gender fluid, questioning, transgender man, transgender woman, and another gender identity.

<sup>2</sup> "Multiracial URM (U.S.\*)" includes students who reported multiple races/ethnicities including one or more of the following: American Indian/Alaska Native, Black/African American, or Native Hawaiian/Pacific Islander. "Multiracial Non-URM (U.S.\*)" includes students who reported their race/ethnicity as White and Asian. "International" includes non-U.S. students of any race or ethnicity.
