

## **2024 Senior Survey**

The 2024 Senior Survey asked members of the class of 2024 about their satisfaction with various aspects of their undergraduate experience, changes in their abilities and knowledge, involvement in academic and extracurricular activities, and their educational and employment plans.

The survey was administered via the web in spring 2024. Of the 3,590 seniors invited to complete the survey, a total of 810 students responded, yielding a 23% response rate.

The results of the 2024 Senior Survey are displayed in the tables that follow. It may be most useful to refer to the survey instrument first in order to locate questions of interest.

On the first line of each table, the responses for the applicable survey question are presented for Cornell University as a whole. Frequencies are also presented by gender identity, race/ethnicity and citizenship, sexual orientation, and undergraduate college. Responses reflecting the views of fewer than five students have been suppressed to protect respondent privacy.

Please contact [irpsurvey@cornell.edu](mailto:irpsurvey@cornell.edu) with any questions you might have about the Senior Survey.

		Overall, how satisfied are you with your undergraduate education?
